

# HOOP STUDY

You Need : Hoop  
Hoop Study Record Sheet  
Pencil

Your Task : To study the life you find on the ground  
in six different areas.

Choose six areas that are very different to each other. Lay your hoop down over the first area and look for any insects that may be living there. Count the number of grasses within your hoop and measure the height of the tallest type of grass.

Write your answers for each of the six areas in the spaces on your Record Sheet.
